DPMS Fetch&Go App

Advanced Mobile Phone/Data Capture App

User Guide

Start-Up

Click the"EYEBALL"   Activate Fetch&GO

Step 1

Verify Border

Step 2

Enter Data

Step 3

Take Photo & upload

Step 2

Repeat for New Attendee

NOTES:

1) If you take a photo and dont like it, simply re-shoot it by pressing cancel.

2) If you are not connected to the internet the app will hold all data and images until the phone isconnected. All images will upload once connected,

3) To change borders click on "Photo Borders" on the start-up screen. Type in the new "Event Name" and the borders for that event will be loaded.
